Program

Motorcycle & Powersports Technician

Students will learn skills needed to prepare for a career in the Motorcycle, Powersports and Power Equipment industries. Training includes shop administrative functions, preventative maintenance, fuel systems, electrical systems, engine overhaul, wheels, tires, brake systems, suspension systems, and drivetrain systems. In addition, students will receive training for Power Equipment operation systems, electrical systems, maintenance and PWC propulsion systems. Successful students will be prepared to obtain and maintain a high-paying, rewarding career as a technician or parts associate with these skills.
